

Call it OCD or whatever, I just can't start the report of our most recent trip (December 25, 2013 through December 31, 2013) until I finish the trip report for our last trip. So since I can't wait to tell you all about our cruise on the Disney Dream and our 3 days in the world here is my shortest daily installment ever....

NHShorty and BuffaloBill's April 21 – 25, 2013 Trip Report

Day 5, April 25th

We checked out of the WL and went to Epcot to spend the day before going to the airport. We did the usual things and saw the usual stuff. The only thing of interest was the PDA couple in the train garden near Germany.

As you may recall from reading the reports on each day of this visit, we spent part of day 3 at EPCOT. At the time of our report, there was a discussion going on elsewhere on the WDWFGU board about PDA in the world. We noted in our report that there was constant PDA going on in the gazebo in the train garden near Germany. We included the following picture as evidence.

Now, fast forward two days and look at the gazebo situation now!

The PDA couple is GONE!!!!!! Disney must be monitoring WDWFGU.

After documenting the PDA situation at EPCOT, we rode Mission Space and Spaceship Earth, went to the airport, flew home, and resumed our boring lives waiting until our December 2013 Disney cruise and vacation which will be reported on soon.
